

Wire Manufacturing Solutions

2209 North Seaman Ave, South El Monte, CA 91733

June 2, 2025

**Subject: REACH Compliance Regulation – Commission Regulation EU 2017/1000
Amending Regulation EC 1907/2006**

Dear Valued Customer,

The regulation for the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) was enacted by the European Union to limit the import and use of hazardous chemicals in manufacturing. REACH consists of 3 lists: Restriction (Annex XVII), Authorization (Annex XIV) and Substances of Very High Concern (SVHCs). Each list has a different restriction concentration and criteria.

Bob Martin Company is a manufacturer and distributor of wire. According to the regulation, the products we supply are not required to be registered in their existing form.

Our suppliers have determined that the products they supply do not contain any significant amounts of substances referenced in Annex XVII, Annex XIV and Substances of Very High Concern (SVHC). They also confirmed to us, that the products they manufacture will continue to be monitored to ensure continued compliance with all REACH regulations (including all amendments).

Therefore, as of the date of this statement, we believe the material supplied to you is in full compliance with the latest release of this regulation.

Sincerely,

Miriam Madrid
Quality Manager
